## Exhibit F

## In the Matter Of:

United States vs

Google

MARK ISRAEL, PH.D.

March 14, 2024

	Page 330		Page 332
1	sides of its platform?	1	A. I don't have a specific cutoff for
2	A. In general, all else equal, there	2	you. It's pretty common to see a firm of less
3	are network effects here that say advertisers	3	than 5 or less than 1 percent.
4	prefer platforms that have more publishers, and	4	If you look at the data here, there
5	publishers prefer prefer platforms that have	5	are dozens of ad exchanges competing and staying
6	more advertisers, all else equal.	6	in the market. That's not a market structure
7	Q. And why, if at all, does scale	7	that, to me, is suggestive that scale is required
8	matter to ad exchanges?	8	to compete.
9	ATTORNEY EWALT: Objection to	9	Q. And in your view, as an economist,
10	form and foundation.	10	are the ad exchanges you're describing
11	THE WITNESS: Yeah, I'm not I	11	differentiated?
12	mean, the I'm not sure that it does.	12	A. They're not identical, so they're
13	I mean, the evidence here is that	13	I guess they're differentiated. They're
14	ad exchanges are there are lots and	14	providing the same basic services. They're
15	lots of ad exchanges competing at various	15	taking bids from buy side, and they're bidding on
16	small sizes. To me, it's the first	16	publisher exchanges. So they're not identical,
17	indicator that this is not an industry in	17	but they're they seem to be successfully
18	which one has to have scale to compete.	18	competing for advertisers and publishers.
19	BY ATTORNEY NAKAMURA:	19	Q. And as an economist, what do you
20	Q. Is it your opinion, sitting here	20	understand the word "differentiated" to mean used
21	today, that scale does not matter to the	21	in the context of comparing different firms?
22	competitiveness of ad exchanges in digital	22	A. That they're not they're not
	Page 221		Dog 222
	Page 331		Page 333
1	display advertising?	1	selling the same thing, that there are
1 2	•	1 2	•
	display advertising?		selling the same thing, that there are
2	display advertising?  ATTORNEY EWALT: Objection to	2	selling the same thing, that there are differences in their services.
2 3	display advertising?  ATTORNEY EWALT: Objection to form.	2 3	selling the same thing, that there are differences in their services.  Q. And why, if at all, in your
2 3 4	display advertising?  ATTORNEY EWALT: Objection to form.  THE WITNESS: It's not my opinion	2 3 4	selling the same thing, that there are differences in their services.  Q. And why, if at all, in your opinion, does scale matter to publisher ad server
2 3 4 5	display advertising?  ATTORNEY EWALT: Objection to form.  THE WITNESS: It's not my opinion that there's no scale effects at all. I	2 3 4 5	selling the same thing, that there are differences in their services.  Q. And why, if at all, in your opinion, does scale matter to publisher ad server products?
2 3 4 5 6	display advertising?  ATTORNEY EWALT: Objection to form.  THE WITNESS: It's not my opinion that there's no scale effects at all. I mean, we talked about network effects, so	2 3 4 5 6	selling the same thing, that there are differences in their services.  Q. And why, if at all, in your opinion, does scale matter to publisher ad server products?  ATTORNEY EWALT: Objection to
2 3 4 5 6 7	display advertising?  ATTORNEY EWALT: Objection to form.  THE WITNESS: It's not my opinion that there's no scale effects at all. I mean, we talked about network effects, so you need some number of publishers and	2 3 4 5 6 7	selling the same thing, that there are differences in their services.  Q. And why, if at all, in your opinion, does scale matter to publisher ad server products?  ATTORNEY EWALT: Objection to form and foundation.
2 3 4 5 6 7 8	display advertising?  ATTORNEY EWALT: Objection to form.  THE WITNESS: It's not my opinion that there's no scale effects at all. I mean, we talked about network effects, so you need some number of publishers and advertisers using your product. And it's	2 3 4 5 6 7 8	selling the same thing, that there are differences in their services.  Q. And why, if at all, in your opinion, does scale matter to publisher ad server products?  ATTORNEY EWALT: Objection to form and foundation.  THE WITNESS: Again, it's not
2 3 4 5 6 7 8	display advertising?  ATTORNEY EWALT: Objection to form.  THE WITNESS: It's not my opinion that there's no scale effects at all. I mean, we talked about network effects, so you need some number of publishers and advertisers using your product. And it's not my opinion that, you know, I could go	2 3 4 5 6 7 8	selling the same thing, that there are differences in their services.  Q. And why, if at all, in your opinion, does scale matter to publisher ad server products?  ATTORNEY EWALT: Objection to form and foundation.  THE WITNESS: Again, it's not obvious, to me, that scale SV
2 3 4 5 6 7 8 9	display advertising?  ATTORNEY EWALT: Objection to form.  THE WITNESS: It's not my opinion that there's no scale effects at all. I mean, we talked about network effects, so you need some number of publishers and advertisers using your product. And it's not my opinion that, you know, I could go launch an ad tech product with five	2 3 4 5 6 7 8 9	selling the same thing, that there are differences in their services.  Q. And why, if at all, in your opinion, does scale matter to publisher ad server products?  ATTORNEY EWALT: Objection to form and foundation.  THE WITNESS: Again, it's not obvious, to me, that scale SV large-scale is required, but we talked
2 3 4 5 6 7 8 9 10	display advertising?  ATTORNEY EWALT: Objection to form.  THE WITNESS: It's not my opinion that there's no scale effects at all. I mean, we talked about network effects, so you need some number of publishers and advertisers using your product. And it's not my opinion that, you know, I could go launch an ad tech product with five impressions.	2 3 4 5 6 7 8 9 10 11 12 13	selling the same thing, that there are differences in their services.  Q. And why, if at all, in your opinion, does scale matter to publisher ad server products?  ATTORNEY EWALT: Objection to form and foundation.  THE WITNESS: Again, it's not obvious, to me, that scale SV large-scale is required, but we talked some about there being technology costs
2 3 4 5 6 7 8 9 10 11	display advertising?  ATTORNEY EWALT: Objection to form.  THE WITNESS: It's not my opinion that there's no scale effects at all. I mean, we talked about network effects, so you need some number of publishers and advertisers using your product. And it's not my opinion that, you know, I could go launch an ad tech product with five impressions.  So I think there's some role for	2 3 4 5 6 7 8 9 10 11 12	selling the same thing, that there are differences in their services.  Q. And why, if at all, in your opinion, does scale matter to publisher ad server products?  ATTORNEY EWALT: Objection to form and foundation.  THE WITNESS: Again, it's not obvious, to me, that scale SV large-scale is required, but we talked some about there being technology costs to developing an ad server. I talked
2 3 4 5 6 7 8 9 10 11 12 13	display advertising?  ATTORNEY EWALT: Objection to form.  THE WITNESS: It's not my opinion that there's no scale effects at all. I mean, we talked about network effects, so you need some number of publishers and advertisers using your product. And it's not my opinion that, you know, I could go launch an ad tech product with five impressions.  So I think there's some role for scale, but I don't think I've seen any	2 3 4 5 6 7 8 9 10 11 12 13	selling the same thing, that there are differences in their services.  Q. And why, if at all, in your opinion, does scale matter to publisher ad server products?  ATTORNEY EWALT: Objection to form and foundation.  THE WITNESS: Again, it's not obvious, to me, that scale SV large-scale is required, but we talked some about there being technology costs to developing an ad server. I talked about that in the report. So you
2 3 4 5 6 7 8 9 10 11 12 13 14	display advertising?  ATTORNEY EWALT: Objection to form.  THE WITNESS: It's not my opinion that there's no scale effects at all. I mean, we talked about network effects, so you need some number of publishers and advertisers using your product. And it's not my opinion that, you know, I could go launch an ad tech product with five impressions.  So I think there's some role for scale, but I don't think I've seen any evidence that you have to be particularly	2 3 4 5 6 7 8 9 10 11 12 13	selling the same thing, that there are differences in their services.  Q. And why, if at all, in your opinion, does scale matter to publisher ad server products?  ATTORNEY EWALT: Objection to form and foundation.  THE WITNESS: Again, it's not obvious, to me, that scale SV large-scale is required, but we talked some about there being technology costs to developing an ad server. I talked about that in the report. So you probably need enough scale to be able to
2 3 4 5 6 7 8 9 10 11 12 13 14 15	display advertising?  ATTORNEY EWALT: Objection to form.  THE WITNESS: It's not my opinion that there's no scale effects at all. I mean, we talked about network effects, so you need some number of publishers and advertisers using your product. And it's not my opinion that, you know, I could go launch an ad tech product with five impressions.  So I think there's some role for scale, but I don't think I've seen any evidence that you have to be particularly large to be able to reach scale. And I	2 3 4 5 6 7 8 9 10 11 12 13 14	selling the same thing, that there are differences in their services.  Q. And why, if at all, in your opinion, does scale matter to publisher ad server products?  ATTORNEY EWALT: Objection to form and foundation.  THE WITNESS: Again, it's not obvious, to me, that scale SV large-scale is required, but we talked some about there being technology costs to developing an ad server. I talked about that in the report. So you probably need enough scale to be able to spread those costs out over enough
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16	display advertising?  ATTORNEY EWALT: Objection to form.  THE WITNESS: It's not my opinion that there's no scale effects at all. I mean, we talked about network effects, so you need some number of publishers and advertisers using your product. And it's not my opinion that, you know, I could go launch an ad tech product with five impressions.  So I think there's some role for scale, but I don't think I've seen any evidence that you have to be particularly large to be able to reach scale. And I think that's shown by the large number of	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16	selling the same thing, that there are differences in their services.  Q. And why, if at all, in your opinion, does scale matter to publisher ad server products?  ATTORNEY EWALT: Objection to form and foundation.  THE WITNESS: Again, it's not obvious, to me, that scale SV large-scale is required, but we talked some about there being technology costs to developing an ad server. I talked about that in the report. So you probably need enough scale to be able to spread those costs out over enough business to make it cost-effective.
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17	display advertising?  ATTORNEY EWALT: Objection to form.  THE WITNESS: It's not my opinion that there's no scale effects at all. I mean, we talked about network effects, so you need some number of publishers and advertisers using your product. And it's not my opinion that, you know, I could go launch an ad tech product with five impressions.  So I think there's some role for scale, but I don't think I've seen any evidence that you have to be particularly large to be able to reach scale. And I think that's shown by the large number of small competitors that continue to stay	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17	selling the same thing, that there are differences in their services.  Q. And why, if at all, in your opinion, does scale matter to publisher ad server products?  ATTORNEY EWALT: Objection to form and foundation.  THE WITNESS: Again, it's not obvious, to me, that scale SV large-scale is required, but we talked some about there being technology costs to developing an ad server. I talked about that in the report. So you probably need enough scale to be able to spread those costs out over enough business to make it cost-effective.  That's the main one I can think
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17	display advertising?  ATTORNEY EWALT: Objection to form.  THE WITNESS: It's not my opinion that there's no scale effects at all. I mean, we talked about network effects, so you need some number of publishers and advertisers using your product. And it's not my opinion that, you know, I could go launch an ad tech product with five impressions.  So I think there's some role for scale, but I don't think I've seen any evidence that you have to be particularly large to be able to reach scale. And I think that's shown by the large number of small competitors that continue to stay in the market and and win business.	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18	selling the same thing, that there are differences in their services.  Q. And why, if at all, in your opinion, does scale matter to publisher ad server products?  ATTORNEY EWALT: Objection to form and foundation.  THE WITNESS: Again, it's not obvious, to me, that scale SV large-scale is required, but we talked some about there being technology costs to developing an ad server. I talked about that in the report. So you probably need enough scale to be able to spread those costs out over enough business to make it cost-effective.  That's the main one I can think of.
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18	ATTORNEY EWALT: Objection to form.  THE WITNESS: It's not my opinion that there's no scale effects at all. I mean, we talked about network effects, so you need some number of publishers and advertisers using your product. And it's not my opinion that, you know, I could go launch an ad tech product with five impressions.  So I think there's some role for scale, but I don't think I've seen any evidence that you have to be particularly large to be able to reach scale. And I think that's shown by the large number of small competitors that continue to stay in the market and and win business.  BY ATTORNEY NAKAMURA:	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18	selling the same thing, that there are differences in their services.  Q. And why, if at all, in your opinion, does scale matter to publisher ad server products?  ATTORNEY EWALT: Objection to form and foundation.  THE WITNESS: Again, it's not obvious, to me, that scale SV large-scale is required, but we talked some about there being technology costs to developing an ad server. I talked about that in the report. So you probably need enough scale to be able to spread those costs out over enough business to make it cost-effective.  That's the main one I can think of.  I mean, generally, you're going
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20	ATTORNEY EWALT: Objection to form.  THE WITNESS: It's not my opinion that there's no scale effects at all. I mean, we talked about network effects, so you need some number of publishers and advertisers using your product. And it's not my opinion that, you know, I could go launch an ad tech product with five impressions.  So I think there's some role for scale, but I don't think I've seen any evidence that you have to be particularly large to be able to reach scale. And I think that's shown by the large number of small competitors that continue to stay in the market and and win business.  BY ATTORNEY NAKAMURA:  Q. And how do you define, for example,	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20	selling the same thing, that there are differences in their services.  Q. And why, if at all, in your opinion, does scale matter to publisher ad server products?  ATTORNEY EWALT: Objection to form and foundation.  THE WITNESS: Again, it's not obvious, to me, that scale SV large-scale is required, but we talked some about there being technology costs to developing an ad server. I talked about that in the report. So you probably need enough scale to be able to spread those costs out over enough business to make it cost-effective.  That's the main one I can think of.  I mean, generally, you're going to network effects still apply.

	Page 334		Page 336
1	are able to attract advertisers and	1	are part and, again, I think of these
2	publishers. But that's less about	2	as part of the creating a match, and
3	needing scale upfront and more about, you	3	at every part of that match, you have to
4	know, competing to attract business.	4	get a publisher you have to get
5	BY ATTORNEY NAKAMURA:	5	publishers and advertisers to agree to
6	Q. And are there network effects that	6	use your product.
7	are relevant to publisher ad servers, in your	7	So publishers have to agree to
8	opinion?	8	use the ad server, and advertisers have
9	A. Yes.	9	to find it worthwhile to buy inventory
10	Q. What are they?	10	from a publisher using that ad server.
11	A. Again, that you want I mean,	11	So in in each of these matched stages,
12	it's more about the the plat the rules of	12	you need to attract both sides of the
13	the platform and the extent the ability it has to	13	market.
14	attract buyers and sellers. But it's important	14	BY ATTORNEY NAKAMURA:
15	for an ad server to be successful, that it	15	Q. But how often, as a relative
16	attracts publishers and that that set of	16	matter, do advertisers buy directly into a
17	publishers and the rules of the ad server attract	17	publisher's ad server as opposed to, for example,
18	advertisers. So it's there's network effects	18	using a DSP or other intermediary service to
19	in the in the sense that attracting both sides	19	purchase inventory?
20	of the market matters.	20	ATTORNEY EWALT: Objection to
21	Q. And are there, in your opinion,	21	form.
22	bidirectional network effects that are of	22	THE WITNESS: I mean, any
	Daga 225		Dama 227

1	relatively the same magnitude moving in both	1	anytime that they buy from anybody who's
1 2	•	1 2	
	relatively the same magnitude moving in both		anytime that they buy from anybody who's
2	relatively the same magnitude moving in both directions for a publisher ad server?	2	anytime that they buy from anybody who's O&O, they're buying directly into an ad
2 3	relatively the same magnitude moving in both directions for a publisher ad server?  ATTORNEY EWALT: Objection to	2	anytime that they buy from anybody who's O&O, they're buying directly into an ad server.
2 3 4	relatively the same magnitude moving in both directions for a publisher ad server?  ATTORNEY EWALT: Objection to form.	2 3 4	anytime that they buy from anybody who's O&O, they're buying directly into an ad server.  My point is that if they if an
2 3 4 5	relatively the same magnitude moving in both directions for a publisher ad server?  ATTORNEY EWALT: Objection to form.  THE WITNESS: I think they're	2 3 4 5	anytime that they buy from anybody who's O&O, they're buying directly into an ad server.  My point is that if they if an ad server if Google's ad server didn't
2 3 4 5 6	relatively the same magnitude moving in both directions for a publisher ad server?  ATTORNEY EWALT: Objection to form.  THE WITNESS: I think they're in all of these technologies, I think	2 3 4 5	anytime that they buy from anybody who's O&O, they're buying directly into an ad server.  My point is that if they if an ad server if Google's ad server didn't work well such that the rules didn't
2 3 4 5 6 7	relatively the same magnitude moving in both directions for a publisher ad server?  ATTORNEY EWALT: Objection to form.  THE WITNESS: I think they're in all of these technologies, I think they're relatively of the same magnitude	2 3 4 5 6 7	anytime that they buy from anybody who's O&O, they're buying directly into an ad server.  My point is that if they if an ad server if Google's ad server didn't work well such that the rules didn't create good matches, advertisers would
2 3 4 5 6 7 8	relatively the same magnitude moving in both directions for a publisher ad server?  ATTORNEY EWALT: Objection to form.  THE WITNESS: I think they're in all of these technologies, I think they're relatively of the same magnitude because the whole business is about	2 3 4 5 6 7 8	anytime that they buy from anybody who's O&O, they're buying directly into an ad server.  My point is that if they if an ad server if Google's ad server didn't work well such that the rules didn't create good matches, advertisers would take their business elsewhere. And
2 3 4 5 6 7 8	relatively the same magnitude moving in both directions for a publisher ad server?  ATTORNEY EWALT: Objection to form.  THE WITNESS: I think they're in all of these technologies, I think they're relatively of the same magnitude because the whole business is about making matches, so you need people	2 3 4 5 6 7 8	anytime that they buy from anybody who's O&O, they're buying directly into an ad server.  My point is that if they if an ad server if Google's ad server didn't work well such that the rules didn't create good matches, advertisers would take their business elsewhere. And that's a that's advertisers if
2 3 4 5 6 7 8 9	relatively the same magnitude moving in both directions for a publisher ad server?  ATTORNEY EWALT: Objection to form.  THE WITNESS: I think they're in all of these technologies, I think they're relatively of the same magnitude because the whole business is about making matches, so you need people choosing your product on both sides.	2 3 4 5 6 7 8 9	anytime that they buy from anybody who's 0&0, they're buying directly into an ad server.  My point is that if they if an ad server if Google's ad server didn't work well such that the rules didn't create good matches, advertisers would take their business elsewhere. And that's a that's advertisers if the rules of the game that were set up by
2 3 4 5 6 7 8 9 10	relatively the same magnitude moving in both directions for a publisher ad server?  ATTORNEY EWALT: Objection to form.  THE WITNESS: I think they're in all of these technologies, I think they're relatively of the same magnitude because the whole business is about making matches, so you need people choosing your product on both sides.  BY ATTORNEY NAKAMURA:	2 3 4 5 6 7 8 9 10 11	anytime that they buy from anybody who's O&O, they're buying directly into an ad server.  My point is that if they if an ad server if Google's ad server didn't work well such that the rules didn't create good matches, advertisers would take their business elsewhere. And that's a that's advertisers if the rules of the game that were set up by the ad server were unattractive,
2 3 4 5 6 7 8 9 10 11 12	relatively the same magnitude moving in both directions for a publisher ad server?  ATTORNEY EWALT: Objection to form.  THE WITNESS: I think they're in all of these technologies, I think they're relatively of the same magnitude because the whole business is about making matches, so you need people choosing your product on both sides.  BY ATTORNEY NAKAMURA:  Q. So is it your opinion that the	2 3 4 5 6 7 8 9 10 11 12	anytime that they buy from anybody who's O&O, they're buying directly into an ad server.  My point is that if they if an ad server if Google's ad server didn't work well such that the rules didn't create good matches, advertisers would take their business elsewhere. And that's a that's advertisers if the rules of the game that were set up by the ad server were unattractive, advertisers are entirely capable of
2 3 4 5 6 7 8 9 10 11 12 13	relatively the same magnitude moving in both directions for a publisher ad server?  ATTORNEY EWALT: Objection to form.  THE WITNESS: I think they're in all of these technologies, I think they're relatively of the same magnitude because the whole business is about making matches, so you need people choosing your product on both sides.  BY ATTORNEY NAKAMURA:  Q. So is it your opinion that the bidirectional nature of network effects for a	2 3 4 5 6 7 8 9 10 11 12 13	anytime that they buy from anybody who's O&O, they're buying directly into an ad server.  My point is that if they if an ad server if Google's ad server didn't work well such that the rules didn't create good matches, advertisers would take their business elsewhere. And that's a that's advertisers if the rules of the game that were set up by the ad server were unattractive, advertisers are entirely capable of substituting around by purchasing ads in
2 3 4 5 6 7 8 9 10 11 12 13 14	relatively the same magnitude moving in both directions for a publisher ad server?  ATTORNEY EWALT: Objection to form.  THE WITNESS: I think they're in all of these technologies, I think they're relatively of the same magnitude because the whole business is about making matches, so you need people choosing your product on both sides.  BY ATTORNEY NAKAMURA:  Q. So is it your opinion that the bidirectional nature of network effects for a publisher ad server are roughly equal to those	2 3 4 5 6 7 8 9 10 11 12 13 14	anytime that they buy from anybody who's O&O, they're buying directly into an ad server.  My point is that if they if an ad server if Google's ad server didn't work well such that the rules didn't create good matches, advertisers would take their business elsewhere. And that's a that's advertisers if the rules of the game that were set up by the ad server were unattractive, advertisers are entirely capable of substituting around by purchasing ads in other forms.
2 3 4 5 6 7 8 9 10 11 12 13 14 15	relatively the same magnitude moving in both directions for a publisher ad server?  ATTORNEY EWALT: Objection to form.  THE WITNESS: I think they're in all of these technologies, I think they're relatively of the same magnitude because the whole business is about making matches, so you need people choosing your product on both sides.  BY ATTORNEY NAKAMURA:  Q. So is it your opinion that the bidirectional nature of network effects for a publisher ad server are roughly equal to those found in a advertising ad exchange product?	2 3 4 5 6 7 8 9 10 11 12 13 14 15	anytime that they buy from anybody who's O&O, they're buying directly into an ad server.  My point is that if they if an ad server if Google's ad server didn't work well such that the rules didn't create good matches, advertisers would take their business elsewhere. And that's a that's advertisers if the rules of the game that were set up by the ad server were unattractive, advertisers are entirely capable of substituting around by purchasing ads in other forms.  BY ATTORNEY NAKAMURA:
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16	relatively the same magnitude moving in both directions for a publisher ad server?  ATTORNEY EWALT: Objection to form.  THE WITNESS: I think they're in all of these technologies, I think they're relatively of the same magnitude because the whole business is about making matches, so you need people choosing your product on both sides.  BY ATTORNEY NAKAMURA:  Q. So is it your opinion that the bidirectional nature of network effects for a publisher ad server are roughly equal to those found in a advertising ad exchange product?  ATTORNEY EWALT: Objection to	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16	anytime that they buy from anybody who's O&O, they're buying directly into an ad server.  My point is that if they if an ad server if Google's ad server didn't work well such that the rules didn't create good matches, advertisers would take their business elsewhere. And that's a that's advertisers if the rules of the game that were set up by the ad server were unattractive, advertisers are entirely capable of substituting around by purchasing ads in other forms.  BY ATTORNEY NAKAMURA:  Q. And other than purchasing from O&O
